EDUCATION

2023 -
VIDYAVARDHAKA COLLEGE OF ENGINEERING

- Bachelor of Engineering in CS-AIML

2021 - 2023
SADVIDYA SEMI-RESIDENTIAL PU COLLEGE

- Pre University College

SKILLS

PROGRAMMING LANGUAGES
Python, C, Java

FRAMEWORKS & LIBRARIES
React, Next.js, LangChain, Streamlit

DATABASES
MySQL, SQLite, Firebase

CLOUD & DEVOPS
Google Cloud Platform (GCP), Terraform, Cloud Load Balancing, Vertex AI, Dataplex, Cloud Monitoring

TOOLS & PLATFORMS
Git, GitHub, Google Workspace, Dialogflow CX, VS Code

PROFILE

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with strong skills in Python, JavaScript, React, LangChain, and Google Cloud technologies including Terraform and Vertex AI. Certified in multiple Google Cloud domains, experienced in cloud infrastructure automation, conversational AI, and data analytics. Eager to apply technical expertise through internships and professional roles in AI, cloud computing, and web development.

PROJECTS

AI PDF Chatbot

- Developed an AI-powered chatbot to extract and answer questions from PDF documents.
- Implemented NLP with LangChain and LLM integration.
- Added multi-PDF support, chat history export, and source referencing.

AI Discord Chatbot

- Developed a Discord chatbot using Nomi AI's API for intelligent conversations.
- Enabled real-time user query responses with minimal custom coding.
- Managed integration and deployment on Discord servers.

Streakify

- Built a productivity tracker app to help users build and maintain daily habits.
- Designed UI/UX for easy streak tracking and notifications.
- Integrated local storage for offline data persistence.

eBook Platform

- Created a web platform to read, manage, and share eBooks.
- Implemented user authentication and personalized reading lists.
- Optimized for mobile and desktop responsiveness.

CERTIFICATIONS

- Gen AI: Beyond the Chatbot (Google, 2025)
- Gen AI: Unlock Foundational Concepts (Google, 2025)
- Innovating with Google Cloud Artificial Intelligence (Google, 2025)
- Scaling with Google Cloud Operations (Google, 2025)
- Trust and Security with Google Cloud (Google, 2025)
- Python for Data Science, AI & Development (IBM, 2025)
